

I wnderstand that the FCC is proposing to expand the LPFM service and this will have priority over the current FM translator service. There are sever Christian stations that my fanily and I listen to and we feel that they would be effected by this. K-Love is one of the effected station and I would not like to see this happen. The goverment seems to be trying to force many un-christian like things on us. In the privicy of my home and car I would like to continue listening to good Christian radio.
